Candle Community Rings — Announcement & Rollout Plan

The Big Idea

> ***Success / FDV = Number of People × Skills × Coordination × Belief***

The world is splitting in two. People who know how to use AI and people who don't. Candle Elite is for the ones who want to be on the right side of that divide.

This isn't a community you can drift in and out of. This is a live, moving machine — every person needs to pull their weight. We're not taking passengers. We need each person to be worth 100 normal people.

The path goes from ChatGPT beginner all the way to building real AI agents. You level up as a community, on stream, together.

The Rings

🌐 Ring 1 — General

You're in. This is where everyone starts. Access to #general, announcements, and public updates. **Why be here?** Get a feel for the community. See what's happening. Decide if you want more.

✅ Ring 2 — Candle Verified

Verify your Candle account to unlock this ring. Gets you into verified-only channels and puts you on the path to holder status. **Why level up?** You start seeing things the general public doesn't. → Verify at https://candle.tv/

🔥 Ring 3 — Candle Holder

Hold $CNDL and you're in. Unlocks holder-only channels with early signals and real alpha. **Why level up?** This is where the real conversations start. Early info, early moves. → Buy $CNDL at https://candle.tv/

💎 Ring 4 — Believer

Mint the Believer NFT to unlock this ring.

What you get:

- Access to a private channel run by @andrew — someone who turned early conviction into life-changing wealth in 2013 and has spent years in rooms with founders backed by a16z, Founders Fund, and Sequoia. Real pattern recognition, not recycled CT takes.
- Sneak peeks and earliest info on upcoming launches before anyone else sees them
- Access to **exclusive live streams** — you need the Believer NFT just to watch. These aren't recordings you can catch later. You have to be there live.

Why level up? If you want insights and early access, hold $CNDL and get the Believer NFT. That's your ticket.

Believers are expected to add value to the channels below them. That's how you get noticed for Elite.

→ Mint the Believer NFT at https://candle.tv/

👑 Ring 5 — Elite (invite only)

The inner circle. You don't buy your way in — you earn it.

What you get:

- A private masterclass on AI — from ChatGPT basics all the way to building real AI agents, done as a community, on stream, live. If you're not on AI you're getting left behind. This is your last real chance to get ahead of it.
- Access to the hottest upcoming launches — AI projects, big brand collabs, things that haven't been announced anywhere
- The opportunity to become part of the founding team on serious launches. We're talking AI x big brand deals. This is real.
- A network where every single person is operating at an elite level. Not here to spectate — here to build.

To get into Elite you need:

- $CNDL (skin in the game)
- Believer NFT
- To have proven you add value in the rings below

Invites come from the team. You don't apply — you get noticed.

🐳 Whale — 0.5%+ supply or $100k+ wallet

A private channel for the biggest supporters. Earliest alpha. Direct access. Auto-detected.

Discord Announcement

```
🕯️ The Candle community just got an upgrade.
```

We've split into 5 rings — a clear path from newcomer to inner circle, with real value at every level.

The world is dividing. AI is splitting people into two groups — those who know how to use it and those who don't.
Candle Elite is being built for the ones who want to be on the right side.

Here's where you stand and where you can go:

———————————————

🌐 Ring 1 — General
You're in. Everyone starts here.

✅ Ring 2 — Candle Verified
Verify your account → unlock verified channels.
→ https://candle.tv/

🔥 Ring 3 — Candle Holder
Hold $CNDL → unlock early alpha and holder-only channels.
→ https://candle.tv/

💎 Ring 4 — Believer
Mint the Believer NFT → unlock sneak peeks, earliest launch info, and exclusive live streams you can only watch with the NFT.
@andrew shares real intel here — pattern recognition from a decade of being in the room with the best founders in the world.
This isn't recycled CT takes. This is the real thing.
→ https://candle.tv/

👑 Ring 5 — Elite (invite only)
The inner circle. Earned, not bought.
Live AI masterclass as a community — from ChatGPT basics to building real AI agents.
Access to the hottest upcoming launches and the chance to be part of founding teams.
You need $CNDL + Believer NFT + to have proven your value below.
Invites come from the team. You don't apply — you get noticed.

———————————————

Every ring unlocks something the one below it doesn't.
The question is how far you want to go.

This is a live machine. Every person needs to pull their weight.
We're not taking passengers.

```
🕯️ Something's changing tomorrow.

The path just got a lot clearer.
```

> *No links. No explanation. Let it sit.*

X / Twitter Announcement

```
 the candle community just restructured.

the world is splitting in two.
people who know how to use AI — and people who don't.

candle elite is for the ones who want to be on the right side.

5 rings. each one unlocks something the one below it doesn't.

🌐 general → just show up
✅ verified → verify on candle.tv
🔥 holder → hold $CNDL, get real alpha
💎 believer → mint the NFT. sneak peeks, earliest launch info, exclusive live streams you can only
watch if you hold the NFT
👑 elite → invite only. live AI masterclass. inner circle. founding team access on huge launches.

you don't buy your way into elite. you earn it.

the path is clear 🕯️
```

X / Twitter Teaser (Post 24hrs Before)

```
something's shifting in the candle community tomorrow.

the rings just got deeper 🕯️
```

The Formula

Success / FDV = Number of People × Skills × Coordination × Belief

We become huge by stacking all four.

- More people moving up the rings = more people
- AI masterclass = more skills
- Community on stream together = coordination
- Believer NFT + $CNDL = belief

Every piece feeds the next.

Rollout Plan

Day 1 — Set Everything Up (Before Anything Goes Public)

- [ ] Make sure all 5 Discord roles exist and are set up correctly
  - *Example: Create roles named "Verified", "Holder", "Believer", "Elite", "Whale" and assign them the right channel permissions*
- [ ] Test each role by temporarily giving it to a test account — make sure it unlocks the right channels and nothing leaks through
  - *Example: Log in as the test account and confirm a Holder can't see Believer channels*

- ☐ Confirm the Believer NFT mint is live and the link works — do a test mint if you can
- ☐ Set up the exclusive live stream access gate so only Believer NFT holders can join
  - *Example: Use a token-gated tool like Collab.Land in Discord so only wallets holding the NFT get the stream link*
- ☐ Pin a clean visual breakdown of the 5 rings in `#announcements` or `#start-here`
- ☐ Brief the mods — send them a quick message like: "*Tomorrow we're announcing the ring structure. Expect questions like 'how do I verify?' and 'where do I buy $CNDL?' — here are the answers...*"
- ☐ Schedule the teaser post and the main announcement in advance so the timing is clean and nothing is rushed

---

Day 2 — Drop the Teaser

- ☐ Post the Discord teaser in `#announcements` — just the two lines, nothing else
  - *Example: "🕯️ Something's changing tomorrow. The path just got a lot clearer."*
- ☐ Post the X teaser at the same time
  - *Example: "something's shifting in the candle community tomorrow. the rings just got deeper 🕯️ "*
- ☐ Do not explain anything in the comments — if people ask, just reply with 👀 or "tomorrow"
- ☐ Watch engagement. If the teaser gets traction, repost or quote it to keep it moving

---

Day 3 — Main Announcement

- ☐ Post the full Discord announcement in `#announcements` and pin it immediately
- ☐ Post the X announcement thread — lead with the hook, follow with the ring breakdown

- ☐ Mods should react to the announcement and start conversations within the first 30 minutes
  - *Example: A mod posts in #general: "just read the announcement — who's going for Believer? 👀"*
- ☐ Have @andrew post a personal message in Ring 4's channel explaining why it exists and what he shares there
  - *Example: "I built this channel because most crypto alpha is noise. What I share here is what I actually act on — pattern recognition from being in rooms most people never get into."*
- ☐ Tease the first exclusive live stream with a date and topic
  - *Example: "First Believer-only stream is [DATE]. We're going from zero to using AI agents in one session. You need the Believer NFT to get in. No recordings."*
- ☐ Make sure every post ends with the three links: verify, buy $CNDL, mint Believer NFT

Days 4–7 — Keep Pushing

Each day focus on one ring. Go deep on what's inside it and why someone would want to be there.

- ☐ **Day 4 — Ring 2 spotlight:** Post about what Verified members get that General doesn't
  - *Example: "Verified members saw [X signal] 48 hours before it was public. That's what verification gets you."*
- ☐ **Day 5 — Ring 3 spotlight:** Post about $CNDL holder benefits and a recent alpha moment
  - *Example: "Holders got early access to [project/info] last week. Here's what happened next."*
- ☐ **Day 6 — Ring 4 spotlight:** Share a teaser of something @andrew posted in Believer — just enough to make people want in
  - *Example: "Here's one thing @andrew shared in Believer this week: [one-liner insight]. The full breakdown is inside."*

- ☐ **Day 7 — Ring 5 spotlight:** Post about the AI masterclass and what Elite members are building
  - *Example: "Elite members are learning to build AI agents this month. Here's what that actually means and why it matters."*
- ☐ DM active members stuck at Ring 1 or 2 personally
  - *Example: "Hey — you've been active in the community for a while. Have you seen the ring announcement? Based on how engaged you are, Ring 3 or 4 would suit you."*
- ☐ Run the limited push: first 50 new Believers get a public shoutout in Elite
- ☐ Post ring movement numbers every day — keep it simple
  - *Example: "Day 4 update: 12 new Verified, 8 new Holders, 3 new Believers since the announcement 🕯️ "*

Week 2 — Keep the Momentum Going

- ☐ Run the first exclusive Believer-only live stream
  - Topic: *From ChatGPT beginner to using real AI tools* — practical, hands-on, no fluff
  - Make it clear before and after: **no recording, you had to be there live**
  - After the stream, post a one-line teaser in public channels: *"Believers just got [X takeaway]. Next stream is [DATE]."*
- ☐ Post 2–3 short testimonials from Ring 4 and Ring 5 members
  - *Example: "Since joining Believer I've [specific outcome]. @andrew shared [specific insight] that I acted on immediately."*
- ☐ Identify 3–5 people who are close to Elite based on their activity and reach out directly
  - *Example: "You've been one of the most active contributors this week. The team has noticed. Keep it up."*
- ☐ Post a public recap of ring movement since launch
  - *Example: "One week since the ring announcement: +47 Verified, +23 Holders, +11 Believers, 2 new Elite invites sent. The machine is moving. 🕯️ "*

- ☐ Keep the community dashboard updated with live ring counts so anyone can see the momentum
